

K-Love is so important to me, couldn't go through my days without their prayers and wonderful music and no garbage to listen too. I don't have to worry about what type of music they will be playing that would not be good for my kids to hear. Thousands of people have come to know God because of the music and prayers that they can listen to on this station. Please don't take them off the air, I don't know what I would do if they weren't there for me to listen too. The community needs this station and the kind of music they play, especially with all the crap music that is out there for kids to hear. Thank you.
